Are you a mobilehome owner or resident that needs information on local resources available to you?

Panelists will provide vital information on new legislation that pertains to mobilehome owners and residents, and how the laws might assist them. There are state and local resources that are available, and will be examined during the town hall.

Mobilehome residents should be offered the same kind of protection that is provided to others. California's housing crisis demands solutions at every level, for all incomes, and all kinds of homeowners and renters.

**If you have any questions, please call Senator Umberg's District Representative Yajaira Lechuga at (714) 558-3785.**
